### **Ideas around colours:**

1. What are you drawn to? Where might you want your finished piece(s) to live? What colours would make you happy in a specific space?
2. Don't think about it too long... we will be mixing!
3. If there are other colours you just love... bring them too.
4. If you like autumn colours - choose a more orangey red, a more orangey yellow and a blue that leans more towards purple (versus one that is more towards a turquoise).
5. If you like bright colours - choose the brightest and purest primary colours.
